TOM DUNN'S TRIAL.

Testimony of John Henry Murphy and Ex-Detective Acton.

The Defendant Takes the Stand in His Own Behalf.

Some Sharp Sparring Between Counsel as to the Admission of Evidence.

Other Matters Transacted by the Various Legal Tribunals-The Record.

The trial of Thomas Dunn, indicted with John C. (alias "Con") Lynch, John (alias Jack) White, and David Murray for the Isa ceny of \$356 from H. H. Sparks by what is known as the "top and bottom game," was resumed in the criminal court yesterday. The court room was crowded throughout the day. The witness, O'Leary, took the stand and his cross-examination was concluded. He was usked if he had been working up this case, which was objected to. He said that he had which was objected to. He said that he had been engaged in obtaining money by three card monte perhaps two or three thousand times until he was arrested for the larceny of a watch from Mr. Boone. He had par-ticipated in "bunco" but three or four times

directly.

John H. Murphy was sworn. Mr. Williams objected to his competency, on the ground that he had been convicted, citing instances where witness had been convicted of larceny and manslaughter. The pardons were produced and the court ruled that witness was competent. Witness testified that he had been acquainted with Dunn for twenty-five years; romembers that he was in the city in October, 1881. Witness attended the centennial at Yorktown, and returned about the twentieth; had a conversation with Dunn. They were working together, one with one combination and one with another, but had an arrangement between them. with one combination and one with another, but had an arrangement between themselves to divide the money they made. They met at Sixth street and Pennsylvania avenue, and they showed up how much each had won, but they did not make a division. Dunn said he had won \$500 from one man and \$20 from another. As to the \$500 he said they beat the man at Wise's; that the money had not been "cut up," and that was one of the reasons that he Wise's; that the money had not been "cut up," and that was one of the reasons that he did not get his portion. He said that a man named Murray "steered" the man and Lynch played for the man. Dunn did not say what part he took. Dunn said that as soon as the money was divided he would settle with witness. There had been a arrangement beness. There had been an arrangement be-tween them for from four to six weeks. There were two combinations of monte and "top and bottom," or bunco, in town, and it was understood that he would go with the monte men and Dunn with the others. They never had a settlement, each having gradually got jealous of the other. Cross-examined—Witness procured the pic-

ture of Dunn from the house of Mr. Wood-yard. Mrs. Woodyard was present. "By whose direction did you take the pic-

"By whose direction did you take the picture?" was asked.

Witness hesitated, but finally said Gov. Wells told him to get it as soon as he could. Told Gov. Wells that he would get it if he bed to steal it. Witness had been at "three card monte" from 1877 to 1882, until within a month of his arrest in March. 1882. He had played monte probably 3,000 or 4,000 times in Maryland, Virginia, and Pennsylvania, besides the district. Went to Yorktown to play monte. Witness had spoken to the members of the citizene committee while in jail at to this case. O'Leary was in jail. Witness was in the jail when they becan. Half a dozen came down to jail, among them Mr. Thompson and Mr. Fox. Prior to their coming Col. William P. Wood had conversed with him as to having an interview. Witness sent for Wood and be came. It was four or five months after this that Mr. Thompson and others came. Mr. Wood came to converse with him, to consult with him, and to console with him. Wood came to converse with him, to consult with him, and to console with him. Wood promised to get him pardoned, and advised him to keep his mouth shut. Witness proposed to give the information if he would be pardoned. Did not make the proposition to the citizens' committee, nor did O'Leary do so in his presence. O'Leary did not act for him in this matter. Mr. B. H. Warner was there on one occasion. Brewster Cameron did not visit him. Mr. Mr. B. H. Warner was there on one occasion. Warner was there in relation to business b tween him and Mr. Dunn, a monte trick. Remember an interview with Messrs. Thompson, Warner, and O'Leary, lasting about five, minutes. Dunn was brought there to so; if he would corroborate him as to a statement in regard to a monte case not now on trial. Did he corroborate you? was asked, but the

court ruled it out.

This closed the testimony for the government, and Thomas Dunn, the defendant, was called and testified in his own behalf. He said that he was employed as a brickmaker since May 25, 1882, by the Virginia Brick company; was not present at the time the occurrence testified to took place; never acted as the bartender for Mr. Wise; never aw Mr. Sparks till he was arraigned here. Witness was standing conversing with Mr. Holmes when Mr. Acton came up and made a communication in regard to the affair. ness went to the Baltimore and Ohio depot with him, and Mr. Acton called Mr. Sparks and asked him if witness was one of the men. Coomes and Sargent were present. Witness was not in company with John White, Lynch. or Murray in Bryan's saloon, nor did he go in Bryan's dining room.

Mr. Wells, Why?

The court, You cannot ask why. Three card monte is larceny, and to ask why you ask if he is guilty of larceny.

Mr. Wells asked if he played with Skiving-ten and O'Leary, and he declined to answer. Witness did not set as "the farmer" when Harris was the scarce at Javins's; was not in the game. Did not play a game at Tobe Hudson's when a watch was taken; did not give the watch to Woodyard nor to Flinders. did not receive a cent from Flinders as the proceeds of the watch, nor from Woodward; did not know that the proceeds of the watch vere divided between Scribner, O'Leary, and

others. Mr. Pelham said that O'Leary got it, which Mr. Wells denied, and Mr. Pelham reiterated

Mesars, Lewis Clephane, W. H. Dempsey, and C. E. Pearson were called as to the reputation of Dunn at the time of the robbery,

but, as they did not know, were excused.

Mr. Sparks, the gentleman who was robbed, contradicted Actor's evidence, and testified that seton came to the depot between I and 2 o'clock and witness met him. Did not see any one standing near. Acton said to witness wife that they would get a portion of the money, and asked him what portion of

the money he would be satisfied with. Witness said he did not understand how they ness said he did not understand how they could get the money and not the thieves. Acton told him to come to the office at 9 o clock that night, and he thought he could get \$300. Next day Acton told him that the parties were gone, and advised him to go to Missouri and write to him. and claimed a case against the defendant.
He reviewed the testimony, and showed the
points upon which the government based
their case. He spoke until nearly 3 o'clock,
when Judge Pelham began for the defense.
He said that the evidence submitted against
his client was based merely upon the testimony of men whose testimony should not be mony of men whose testimony should not be admitted into a court of law; that the witnesses had nearly all served terms for the same oftense for which his client was now on trial. When Mr. Pelham fluished, the court adjourned until to-day.

Mr. H. L. A year or so ago my kidneys became weak and sluggish, owing to a severe strain, and finding relief in Hunt's Remedy I continued its use until I had used four bottles, when I became well. Since my cure I tles, when I became well. Since my cure I have suggested its use to a great number of people, who I know have been benefited by using it." And to substantiate this statement Mr. H. S. This most remarkable statement was made y Mr. Frank B. Lee, clerk in the office of N. . C. and H. R. R. R., Little Falls, N. Y., on

the eighth of June, 1883.

Mr. Lee says: "My father has been troubled for over twenty years with severe kidney and bladder disease, suffering the most acute pain when urinating. He became so bad that he was obliged to give up all business. His condition was such that his urine would drep constantly, and he was obliged to use a rub-ber bag, the weakness was so great. He used many kinds of medicine without deriving any benefit, until he was urged by one of our druggists in Little Falls (Mr. Skinner) to use Hunt's Remedy, as he had known of its being used in many cases with great success. I purchased one bottle, and he commenced using it, and he was so improved that he got along without the rubber bag. He used in all twelve bottles, and it has entirely cured him. Father is 62 years old, and we consider it a most wonderful cure, and cheerfully recom-

SUPERFLUOUS HAIR. SUPERFLUOUS HAIR SUPER ELECTROLYSIS DR. J VAN DYCK, DERMATOLOGIST, NO. 22 GRANT PLACE.

DERMATOLOGIST.

NO. 22 GRANT PLACE.

Superfluous Hair.—Superfluous hair is an unnatural and excessive growth of hair on the female face—is most conspicutes on the upper lig., chin, and checks. It also grows upon the arms, and from modes and brithmarks. It is abnorous growth that are present the control of the children of the childre

Such an opinion never satisfies the patient, for no
oman ever yet derived cousolation from the fact
and such as a such a said. The opinion is not sound,
it is unmatural hariness is far from being a trining that uginess is not fatal. The opinion is not sound, for this unnatural hairiness is har from being a trining matter.

True, it may not kill the patient, but is very apt to affect her disposition, and if unmarried is likely to injure her prospects in lite, and may eventually ruin her health and happiness by producing a mental disquietide, which in many cases varges on meiancholy. The frequent occurrence of superfluous hair among insane women has been observed, and no doubt that the mental worry caused by this facial hairiness has acided as an exciting cause and tended to develop insanity, for what greater facial deformity can any womas have than an incipient beard? To a sensitive, refined lady it is almost unendurable; she knows that it is sure to stract attention and to cause remark. Dr. Van Dyck is now successfully treating a remarkably interesting case in this city of a young lady, a member of one of the most eminent Washington families. When her mother brought her to the doctor's office, two months ago, she was on the very verge of insanity here was ladeed a plitable case. She is not more than twenty years of age, with parents who almost idelize her; has a lovely home, and is surrounded by every comfort and luxury that heart could wish for. But with all this she had this excessive birsuities growth, which marred her life and cast a gloom over the unite household. Her upper hip, chin, and checks were covered with a thick, heavy growth of black hair, which, from cutting and extracting, grew as luxuriantly as the beard of a man, she would seed fill herself from all society, and would sit in a darkened room for house its own family, because our free bothers thoughtlessly teased her abour of the happtes of the happtes.

of the happy, as a result of the happy, as a result of the present of their lives. Oh, if I could only get rid of these herrid units, how happy I would be. I don't see why I should be afflicted in this manner. If there is anything displeasing to a lady it is to have a massculine what manner is the property of the pro

thing displessing to a lady it is to have a masculine appearance.

Dit. VAN DYCK, Dermatologist, No. 22 Grant Place, permanently and forever removes Superfluous Hair by the operation of Electropysis, which is the electric nesdle process, and is indorsed by our most eminent physicians and surgeons. This is the only method in the world that will permanently remove this obnoxious growth.
